Online English tutorials for today's businesses

Edinburgh-ESL one-to-one online

Online English tutorials for today's businesses

We have developed Edinburgh-ESL one-to-one online to address the language tuition needs of businesses in the twenty-first century. Using proven, reliable technology to offer a dynamic lesson experience.

We are CELTA trained teachers of English based in the Scottish Borders, south of Scotland's capital Edinburgh.

We offer English lessons online to suit busy professionals who want a tailored service.

Why online?

Using easily available Internet conference technology (skype) we are able to conduct tutorials face-to-face in real time. Effectively we are in the same room, materials and exercises are shared using screen share and file share.

Online lessons are private lessons, so correction and direction can be offered confidentially.

By using the virtual class room huge savings in travel and accommodation costs are achieved along with clear environmental benefits. If you are developing a training strategy for your business, online tutorials offer clear advantages.

Of course if you prefer we can build courses based on conference hotels in our locality or yours.

How does it work?

Our sessions are based around a simple concept, one teacher and one student working together to develop the student's English language, based on the student's needs, abilities and learning styles.

Sessions last forty five minutes and can include:

- grammar focus
- conversation practice
- specific skill development (speaking, listening, writing and reading)

We can base the lessons around your interests and source suitable materials for you (according to ability).

Make the most of your time

In business life, time is at a premium, so when you are choosing a language tuition programme you need to know that it fits your needs and the needs of your company.

We can tailor sessions to your specific requirements, whether that be teaching reception staff, coaching for an event, helping to prepare presentation content or building conversation skills for senior staff.

Individual lessons can be delivered online from your desktop at a time that suits your schedule, with no traveling time, no flight delays and no holiday time lost.

Make the most of your tuition time by making sure that the lessons you receive are targeted to your needs and abilities; with Edinburgh-ESL one-to-one online you won't be studying grammar points you already know (unless you want to revise them) you will be concentrating on the functional English you need to drive your business forward.

Assessment tutorials

All our client relationships start at the same point, with an assessment tutorial. You tell us what you want to get out of English lessons. We can gauge your abilities and level during this session and design a course of study that fits your needs.
